2020 saw Mercury-nominated "British Jazz super-group" *Dinosaur* heading towards their 3rd album which has been released on Edition Records in May. Playing the compositions of bandleader and multi-award winning composer, Laura Jurd, *Dinosaur* explore her distinctive yet ever-evolving music with playful abandon and technical prowess, earning them a reputation as some of the best UK Jazz musicians of their generation.

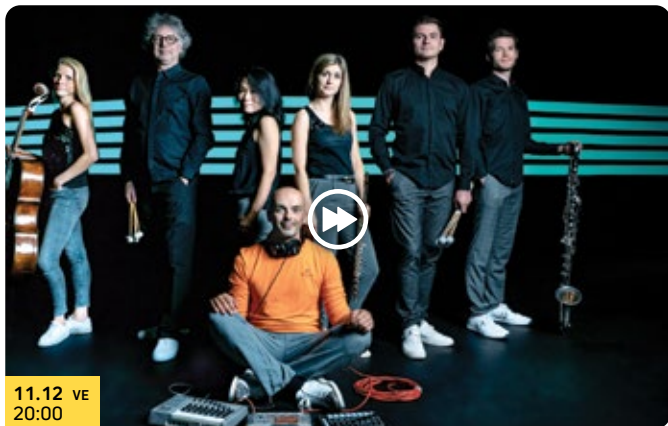

Working on an array of contrasts in a minimalist setting and slipping into a misty mood of melancholy and dark tones, *KLEIN* surprises with splinters of light and explosions of frenetic ecstasy.

Forward | **Victor Kraus Group**

Canto Ostinato

For this project Victor Kraus brings together 7 of the most well-known Luxembourgish musicians. A group specially formed for this magnificent piece, normally played by keys (pianos, percussions, etc.) but never integrating winds, strings or electronics. A minimal music master piece with a duration of 1 to 24 hours; 106 musical blocks repeated *ad libitum*, sounding differently at every performance. A fascinating piece to dream, meditate or slumber. Emre Sevindik, high quality electro musician joins the group as a perfect partner to put in execution a very special idea: integrating into this monumental piece the element of electronics and through this creating an emblematic piece in matter of sound experience.

Naga

Flèche Love aims at the heart and rarely misses her mark. She considers nothing human to be foreign to her. Amina Cadelli, a sensitive amazon with a wounded childhood, heals her wounds through the powerful pieces she writes, composes and produces. Her voice, angry, crystalline, and easily identifiable, shows all of her strengths and weaknesses on an electronic soul with a spiritual focus, deeply marked by Jazz, R'n'B and Hip Hop. She pulls out all the stops, as a truly bewitching and magnetic artist.

Edsun creates an alternative R'n'B/Pop with a dreamy and atmospheric sound, infused with powerful vocals and distinctive beats.
